

# Infrastructure Procurement and Delivery Management

## Aim of the Course

The aim of the course is to:

- provide opportunity for people with roles and responsibilities for infrastructure procurement and delivery management in the public sector to acquire knowledge about governance systems for infrastructure procurement and project governance.
- provide training for people functioning for client bodies to obtain a comprehensive understanding of the role of the client in relation to programme, portfolio, project and demand management in the procurement and supply chain management processes.
- build skills and capacity within both public and private sector for implementation of National Treasury regulations, instructions and standards relating to infrastructure procurement and delivery management.

## Presenters

**Dr Ron Watermeyer**, DEng (Witwatersrand), BScEng, FSAICE, FStructE, FICE, FSAAE, PrEng, CEng, PRCM, PrCPM

**Prof Sam Laryea**, PhD (Reading), BScHons, PrCPM, MSCLA, MRICS, FHEA, MASAQS, MCIQB

**Prof Raymond Nkado**, PhD (Reading), MSc, BScHons, MCIQB, ANIQS, PMP, MBA, PrQS, P.CPM, MRICS

**Prof Yunus Ballim**, PhD (Witwatersrand), MSc, BScEng, MCSSA

**Prof Patrick Fitzgerald**

**Dr Hylton Macdonald**, PhD (Witwatersrand), BScEng, PMP, AWP, FSAICE, MCCSA, FICE, MSPE, FAARB, FSAAE, PrEng, CEng, IngPEur

**Spencer Hodgson**, MSc Arch (Weimar), FCIQB, Pr Arch

**Dave Renwick**, MScEng (Surrey) BScEng, PrEng, MSAICE

**Ezio Gori**, MSc(Natal), BComm, BScBM, MCIQB

Date: 19<sup>th</sup> June to 23<sup>rd</sup> June 2017

Venue: Wits Professional Development Hub  
92 Empire Rd, Parktown, Johannesburg, 2193

## Learning outcomes

At the end of the course the learner should be able to:

- Implement governance systems and control frameworks required to comply with public sector procurement policy and standards for infrastructure procurement and delivery management.
- Apply a systematic knowledge of the role of the client in the efficient and effective management of projects for the purpose of achieving value for money.
- Implement key aspects of National Treasury's standard for infrastructure procurement and delivery management.

## Topics

- Infrastructure and project governance (systems and procedures for authorising, conducting and overseeing infrastructure projects by the client organisation and other stakeholders).
- Role of the client in infrastructure procurement and delivery management (client responsibilities in the portfolio, programme, project, and demand management stages of infrastructure procurement and delivery management supply chain management).
- Standard for infrastructure procurement and delivery management (Supply chain management policy for infrastructure procurement and delivery management of projects).

A **certificate of competence** will be issued by the University of the Witwatersrand to those who pass this short course. The University regards this as NQF Level 7. This is a credit bearing course and a participant who later enrolls as a student may be awarded credit for it.
