13h55 – 14h20	Individual Questions
14h20 – 14h30	Closing Remarks Uzair Osman, Bosch Projects

# Virtual CESA YP Imbizo Series – Session 2

## 16 October 2020

### **Sustaining the future of engineering**

The YP Imbizo provides a unique and dynamic platform for built environment and engineering YPs in the public and private sectors to discuss pertinent issues relating to all aspects of delivery and maintenance of infrastructure and engineering projects.

It also seeks to establish and maintain structures for YPs to become role-models for school learners as well as providing coaching and mentoring opportunities for YPs from senior infrastructure professionals.

# Virtual CESA YP Imbizo Series – Session 2

## 16 October 2020

### Sustaining the future of engineering

Date: 16 October 2020

Time: 12h30

Subtheme: Building Relationships

Conversations on the following topics & difficult situations:

- Building primary relationships
- Explanation of various relationships prior focusing on the primary relationships.
- The importance or significance of primary relations to other relationships.
- Things impacting on negatively on relationships:
  - Retrenchments / unemployment
  - Reduced income/salaries
  - Work vs home ( simply put living at work)
- Importance of relationships in Influencing diversity (male/female? senior vs juniors? Different cultures / races) at work.

# Virtual CESA YP Imbizo Series – Session 2

## 16 October 2020

### Sustaining the future of engineering

The YP Imbizo offers a number of benefits to YPs through the following objectives:

- Empower Young Professionals with best leadership experience embracing objectivity, community participation/activisms, professionalism and promotion of engineering principles.
- Establish and maintain organisational structures for YPs to act as role models for school learners and for senior infrastructure/engineering to mentor YPs.
- Provide solutions to skills development and retention by the public and private sectors. Without engineering skills, there will be no provision for water, housing and road services but abject poverty, inequality and unemployment will prevail.
