

**Impact through Collaboration  
Where “why”, excellence and the  
greater good meet**

CESA Infrastructure Indaba, 29 Sept 2021

Impact starts with me and my perception of “why”

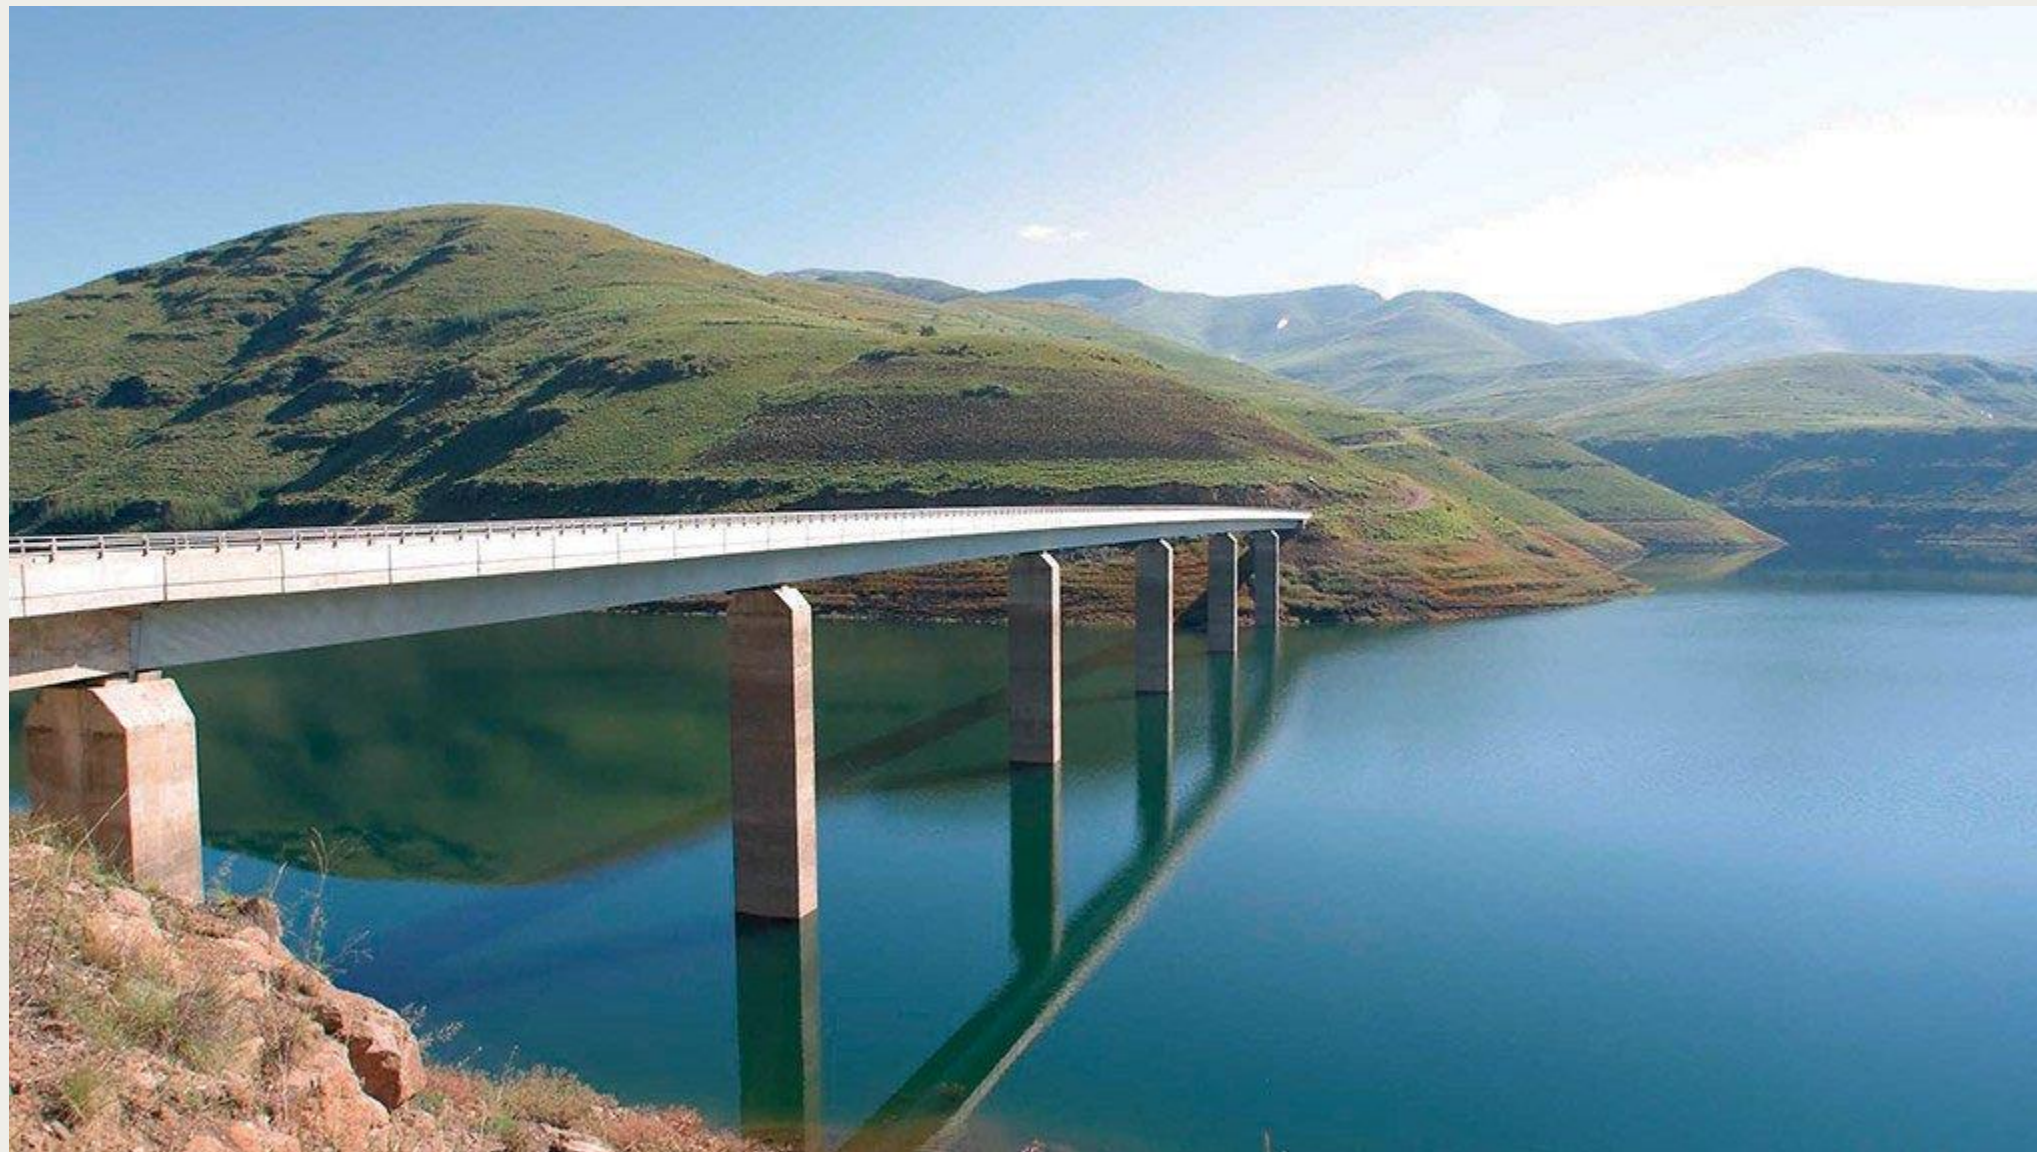

I wanted to make an impact

**Take-out #1: What is your “WHY”?**

# Lesotho Highlands Water Project

# Gautrain

# Renewable Energy Independent Power Producers Programmes

## Take out #2: Align “Why” with Excellence and a vision of the “Greater Good”

ZUTARI

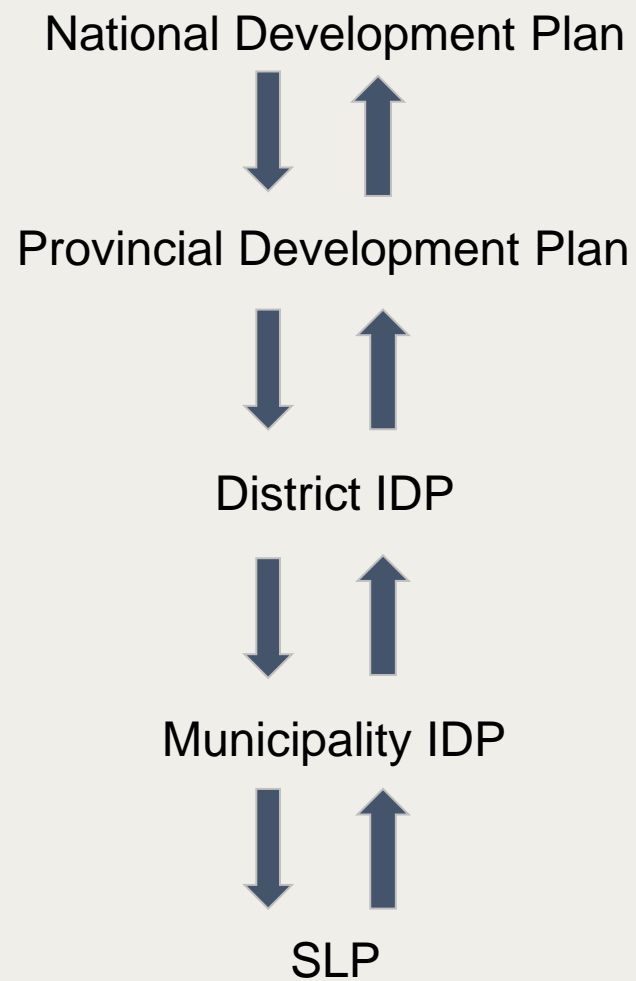

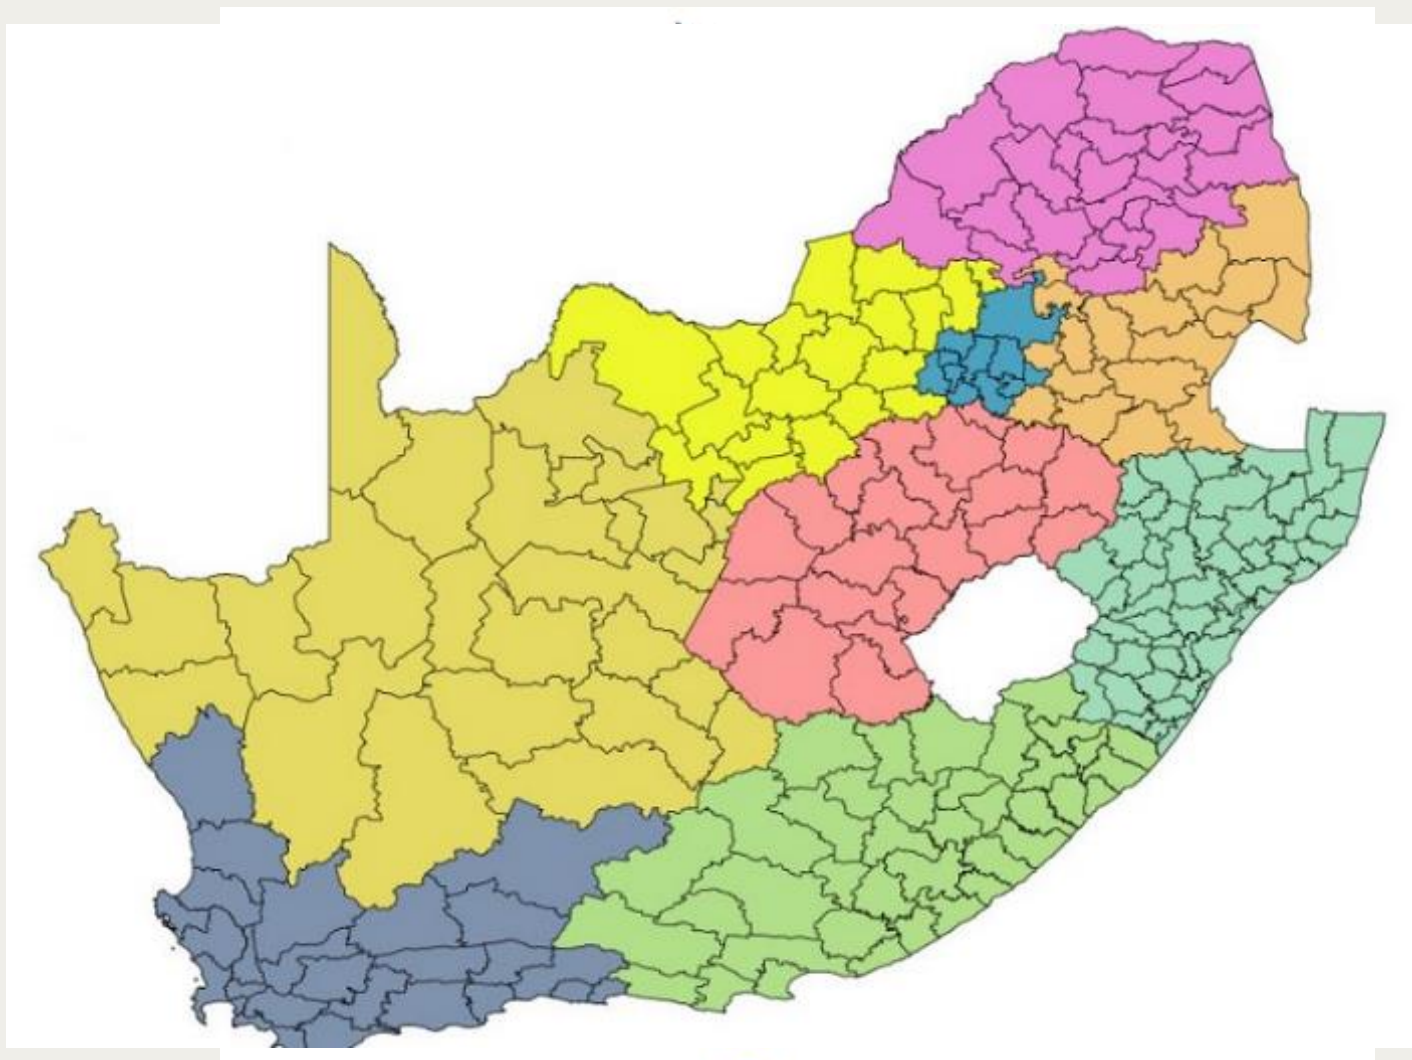

## Support the governmental planning process

Collective approach is required to truly achieve impact:

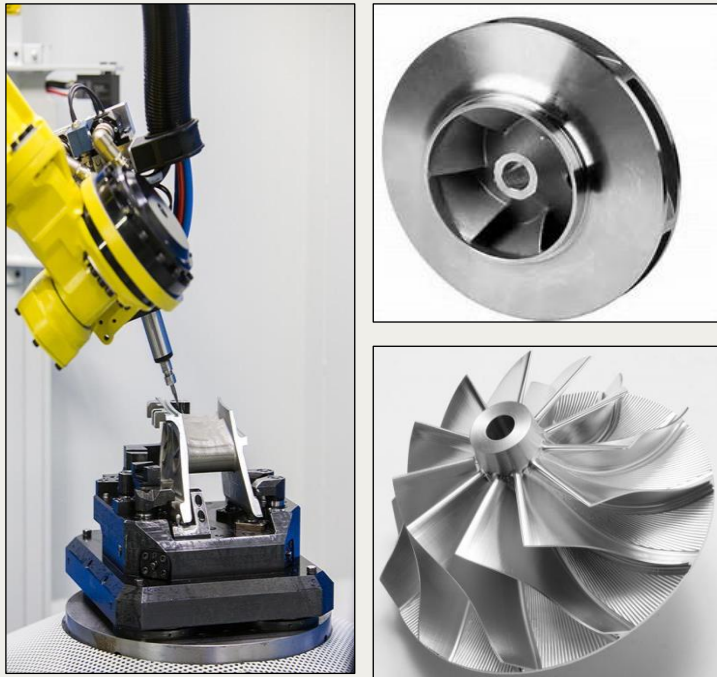

- Strategy needs to be co-created between government and industry to align resources and energy.
- Initiatives identified will not make an impact if not strategically aligned with governmental strategy and resources.

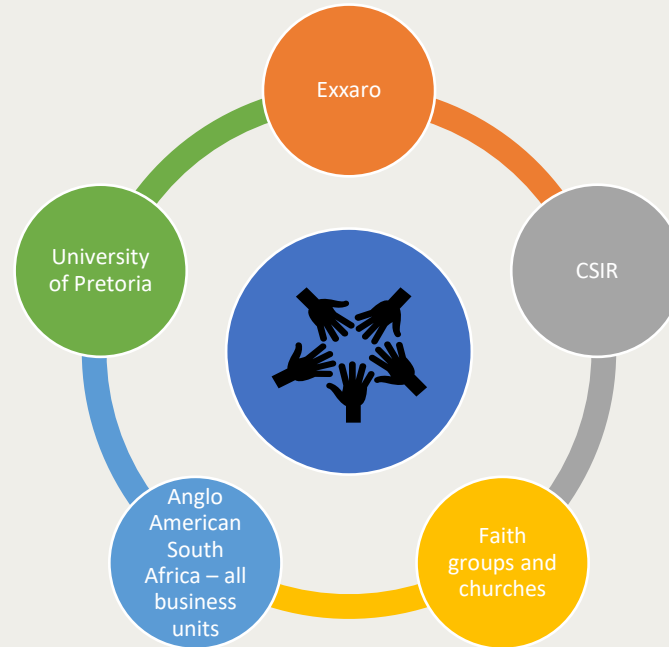

# Support the governmental planning process

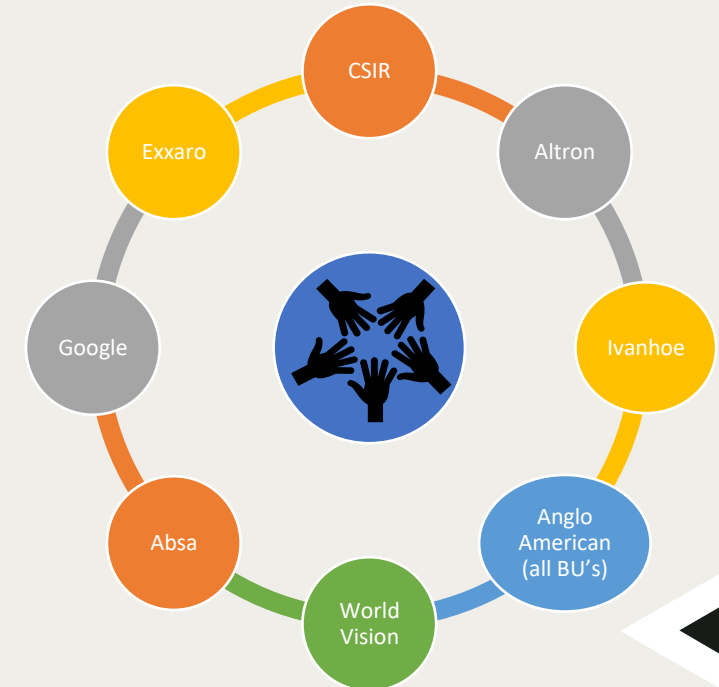

# Engineering the Future: Impact at scale

On-demand manufacturing (pilot)

Community-orientated Primary Care  
3.6m people affected

School ICT: Targeting 250 schools, 300k pupils/yr over 3 yrs

# Take-our #3: Radical collaboration

Conclusion: Impact to accelerate quality of life through Infrastructure Projects requires ...
