

**KWA-ZULU NATAL**  
Durban had close interactions with **64 learners** from **10 different schools** in the area. Learners were given a better understanding of the career paths available to them and felt like they could narrow down their interests to specific fields after attending the day.

**GAUTENG**  
Professionals from various **AECOM** Centurion departments visited **32 learners** at **Rietvlei Akademie**, including learners with physical and learning disabilities. An alumnus turned **AECOM** consultant led the team in presentations on typical daily responsibilities of each role. They mentored the students regarding requirements to study these STEM fields and **AECOM** bursaries available.

# UNEARTHING SOUTH AFRICA'S *Future Engineers*

At **AECOM** part of delivering a better world means nurturing a future generation of engineers and consultants. The **CESA National Job Shadowing Initiative** allowed us the opportunity to impact the lives of **128 learners** in **12 schools** across South Africa.

**WESTERN CAPE**  
Cape Town hosted an informative presentation for **32 learners** at **Calling Academy** on a career in engineering and related supporting fields. Students were curious about specific engineering fields, educational paths and potential career opportunities. The interactive segment of the presentation was well received, using visual aids as effective means to keep the audience engaged throughout the session.

**CESA JOB SHADOWING INITIATIVE 2023**  
**3 REGIONS - 12 SCHOOLS - 128 LEARNERS**
