

**ISAO**  
CONSULTING

# CESA JOB SHADOW INITIATIVE 2023

## #EngineeringTheFuture

At **ISAO CONSULTING**, we strongly believe in building environment solutions towards a brighter future. Naturally, the Engineers of tomorrow deserve extensive mentoring and exposure to the industry.

**15** Grade 11 students from **Realogile High School** in Alexandra shadowed our engineers. In groups of 3, we challenged them to build a Billboard structure and they managed to complete the task within 2 hours with guidance from our team.
