

Gauteng

AECOM in Centurion welcomed 20 Grade 12 learners from Bokgoni Technical Secondary School to the office for an inspiring job shadow day on 11 July 2025.

Site Simulation:
Scholars step into the world of engineering through site simulation.

AECOM Engineers Unearth Future Talent:
AECOM staff, from Candidates to Senior Engineers, delivered engaging presentations to learners, offering insights into their career paths, the impact of engineering on society, available job opportunities, notable projects, and the academic journey required to enter the field.

Inspiring Tomorrow's Innovators:

A consulting engineer shares the journey of shaping the world through engineering, igniting young minds to build South Africa's future in Structural Engineering, Environmental Science, Project Management, Water Engineering, Civil Engineering and Mechanical Engineering.

Western Cape

On 26 June 2025, AECOM in Cape Town proudly welcomed 42 eager learners from Siphamandla Secondary School (Grades 11–12) for an inspiring Job Shadow Day.

We aim to UNEARTH South Africa's future engineers

A day in the life of a consulting engineer

#EngineeringTheFuture

Design. Build. Discover:
Students bring engineering principles to life through hands-on learning.

KwaZulu-Natal

AECOM in Durban proudly hosted 34 enthusiastic learners (Grades 10 -12) from Phoenix Technical High School and Terrance Manor Secondary School for an inspiring Job Shadow Day on 8 July 2025.

Brilliantly Built:
Future engineers put design to the test—and triumphed with structures judged for strength and ingenuity by Structural Engineers.

Welcome to AECOM:
Where South Africa's future engineers begin their journey.
