

# A DAY IN THE LIFE OF AN ENGINEER, ARCHITECT AND ENVIRONMENTALIST

Zitholele Consulting, a leading innovator in the built environment sector, is committed to inspiring the next generation of creators and problem-solvers.

With years of steadfast dedication, we engage students in the exciting worlds of engineering, architecture, structural engineering, and environmental sciences through hands-on experiences and dynamic school presentations.

Our mission is to ignite curiosity and a passion for mathematics and science, empowering young minds to discover and achieve their full potential.

## CESA JOB SHADOW INITIATIVE

### Midrand High School

### David Makhubo Secondary School

### Noordwyk Secondary School

### Allanridge Secondary School

Twenty Midrand High learners spent a day with us, exploring engineering through presentations, quizzes, and a hands-on bridge-building activity.

We hosted a Job Shadow Talk introducing learners to engineering and environmental science, inspiring them to explore careers and see themselves as future innovators.

Our School Talk gave learners real-world insight into civil engineering and environmental science through interactive discussions and Q&As.

Allanridge learners explored engineering and architecture through engaging examples and questions—sparking interest in these career paths.
